Public Murals in Port Coquitlam, British Columbia

Port Coquitlam's vibrant cultural heritage is reflected in the many murals found in its downtown core. A walk through the area reveals scenes from the city's start as "Westminster Junction" and on through time to present day themes of the arts, community and the environment.

ArtsConnect, the arts council serving this region, has created an online gallery at PoCoMurals.ca; check it out for more information on the murals.
